

VAN HAVEN

Spring 2025

SPRING IN BIG TIMBER

Happy Spring, Van Lifers!

However you passed this winter season- whether by seeking warmer climates or cozying up against the cold - we hope you're enjoying the turn of the seasons! Spring is a time for new beginnings, and we're looking forward to all things new this year in Big Timber. Our plans for the first Van Haven site are well underway, and we're looking forward to breaking new

ground. Keep an eye on our social media channels (and on this seasonal newsletter, of course!) for Big Timber updates. Wherever your journey take you this spring, we wish you happy travels!

Spring Cleaning

As the weather warms up, you might find yourself with the urge to refresh and reinvigorate your rig. Here are our favorite ways to get into spring cleaning, van life style!

Declutter and Donate

Go through every drawer, bin, and cubby in your van! If you haven't used an item in the past year, consider donating it or trading with another van lifer.

Deep Clean

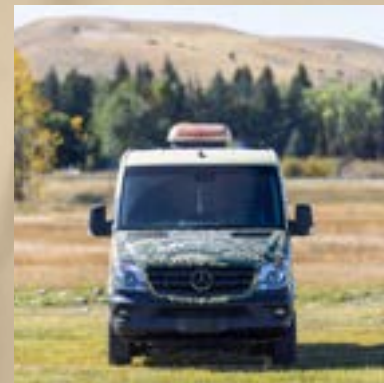

Take a day to deep clean all of your van's deepest nooks- like under your bed platform, behind your kitchenette, and around your solar setup! If you travel with a furry friend, it might also be a good time to grab a shedding brush and help them lose the last of their winter coat (outside of your van, of course!).

Purge/Purify Your Water System

If your water tanks have been sitting through some colder temperatures, now might be a great time to flush and sanitize your water tanks and lines.

Air it Out!

Our favorite on this list - declare a van airing day! Open every window, door, and vent in your van and park in a sunny spot. Fresh air can help refresh stuffy fabrics and stale corners, and it's free!

Pet Passengers

Did you know more than 40% of van lifers travel with their pets? Pet passengers can be an enormous part of the van life experience (and our hearts, too!) and we want to get to know yours!

We're looking to feature your pet passengers in our Summer Newsletter! Submit your favorite photo of you and your furry friend enjoying the van life plus a short blurb about your pet to marketing@vanhaven.us for the chance to be featured!

Spring Destination Spotlight:

Joshua Tree, California

Spring is the perfect time to visit Joshua Tree National Park in California! The park can reach temperatures above 100° in the summer, but spring offers an average high of 80° - making it the ideal time to visit this unique national park!

There are over 500 designated campsites inside the park plus campgrounds in the surrounding towns. All campsites are van-friendly, and the campgrounds outside the park all include hookups. Online reservations are highly recommended for campsites inside the park and can be made at [recreation.gov](https://www.recreation.gov).
